

Crimson Tide PLC

("Crimson Tide" or the "Company")

Contracts Update

Crimson Tide Plc announces a number of new long term contracts signed recently for its mpro5 system. The contracts vary in size and are in line with the company's targets for 2015. Over the last few months the Company has significantly broadened the sectors in which its technology is deployed and mpro5 system will be used in logistics, field audit, maintenance and healthcare with amongst other clients:-

Wright Minimix, Nestlé, Aquilant (part of United Drug), PMGC and an Irish organisation with an innovative HAACP system for checking food condition through the supply chain.

Barrie Whipp Executive Chairman commented "We are delighted to have such prestigious clients use our mpro5 service. There are global opportunities in this list and we have rolled out solutions recently in Australia and are also working towards further systems in Germany and North America. The breadth of these applications shows how mpro5 is relevant to a very wide range of mobility challenges."
